Reading Score

Writing Score

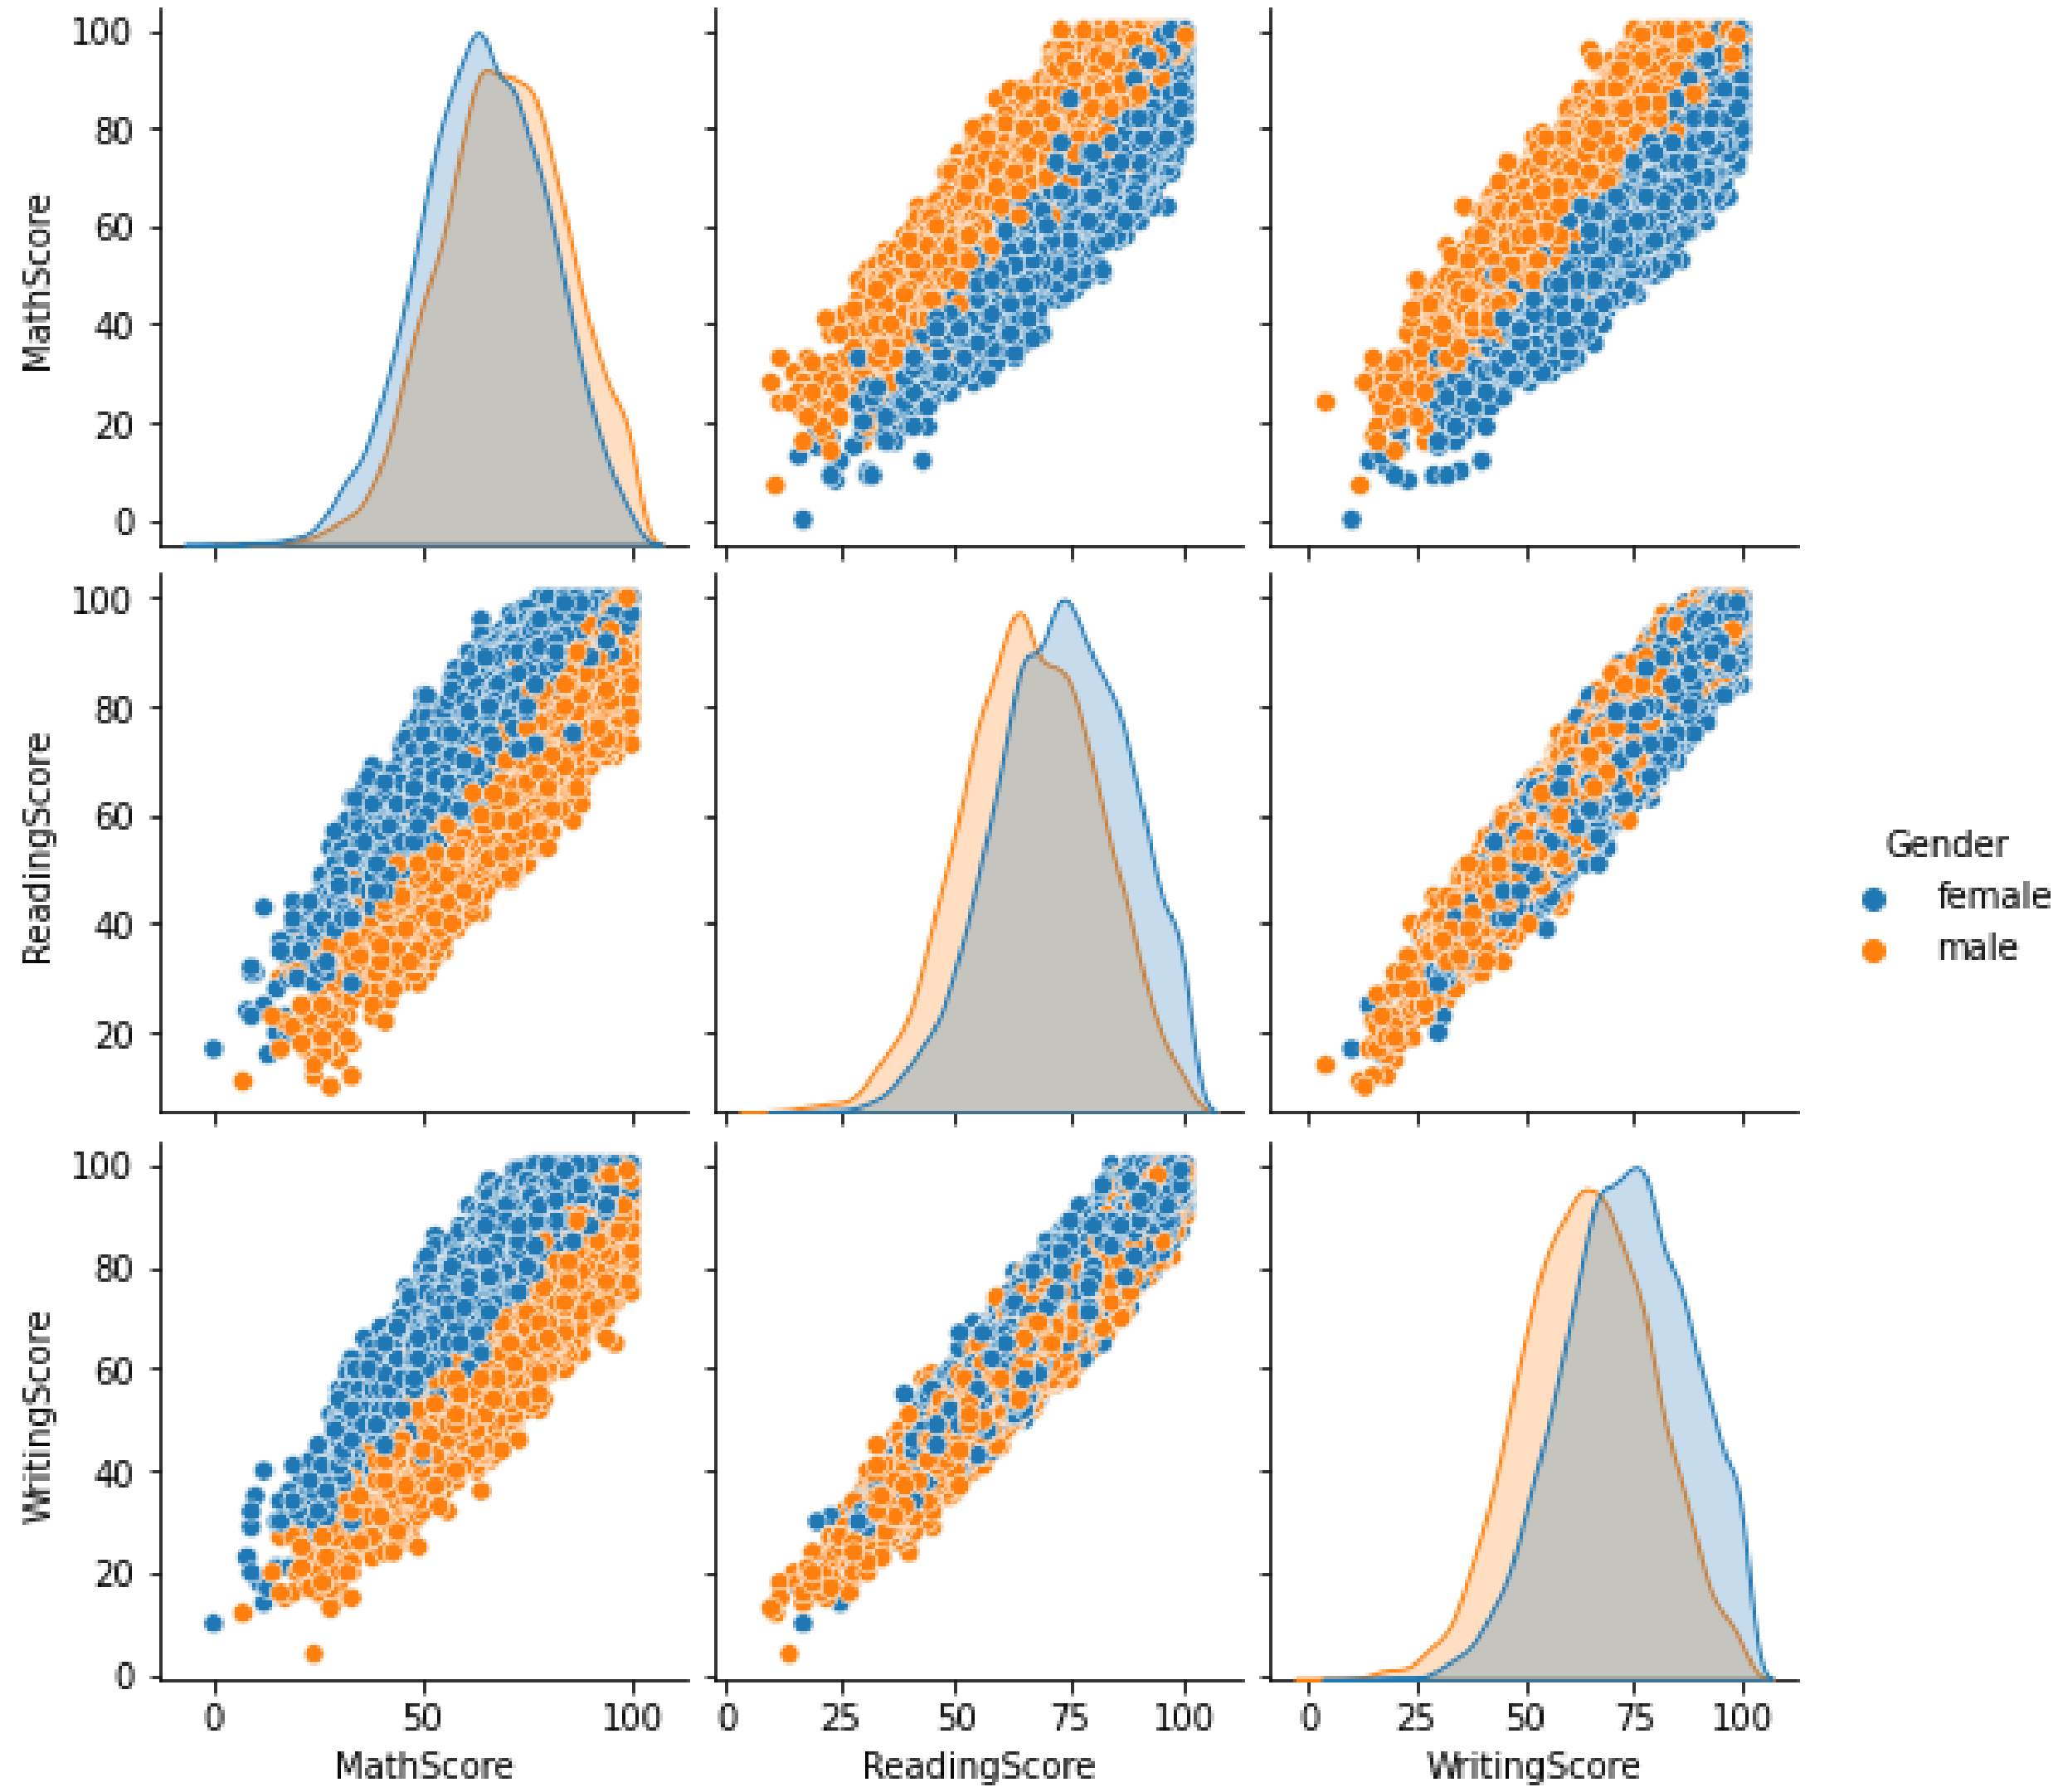

Scores of Students Based on Their Ethnic Group

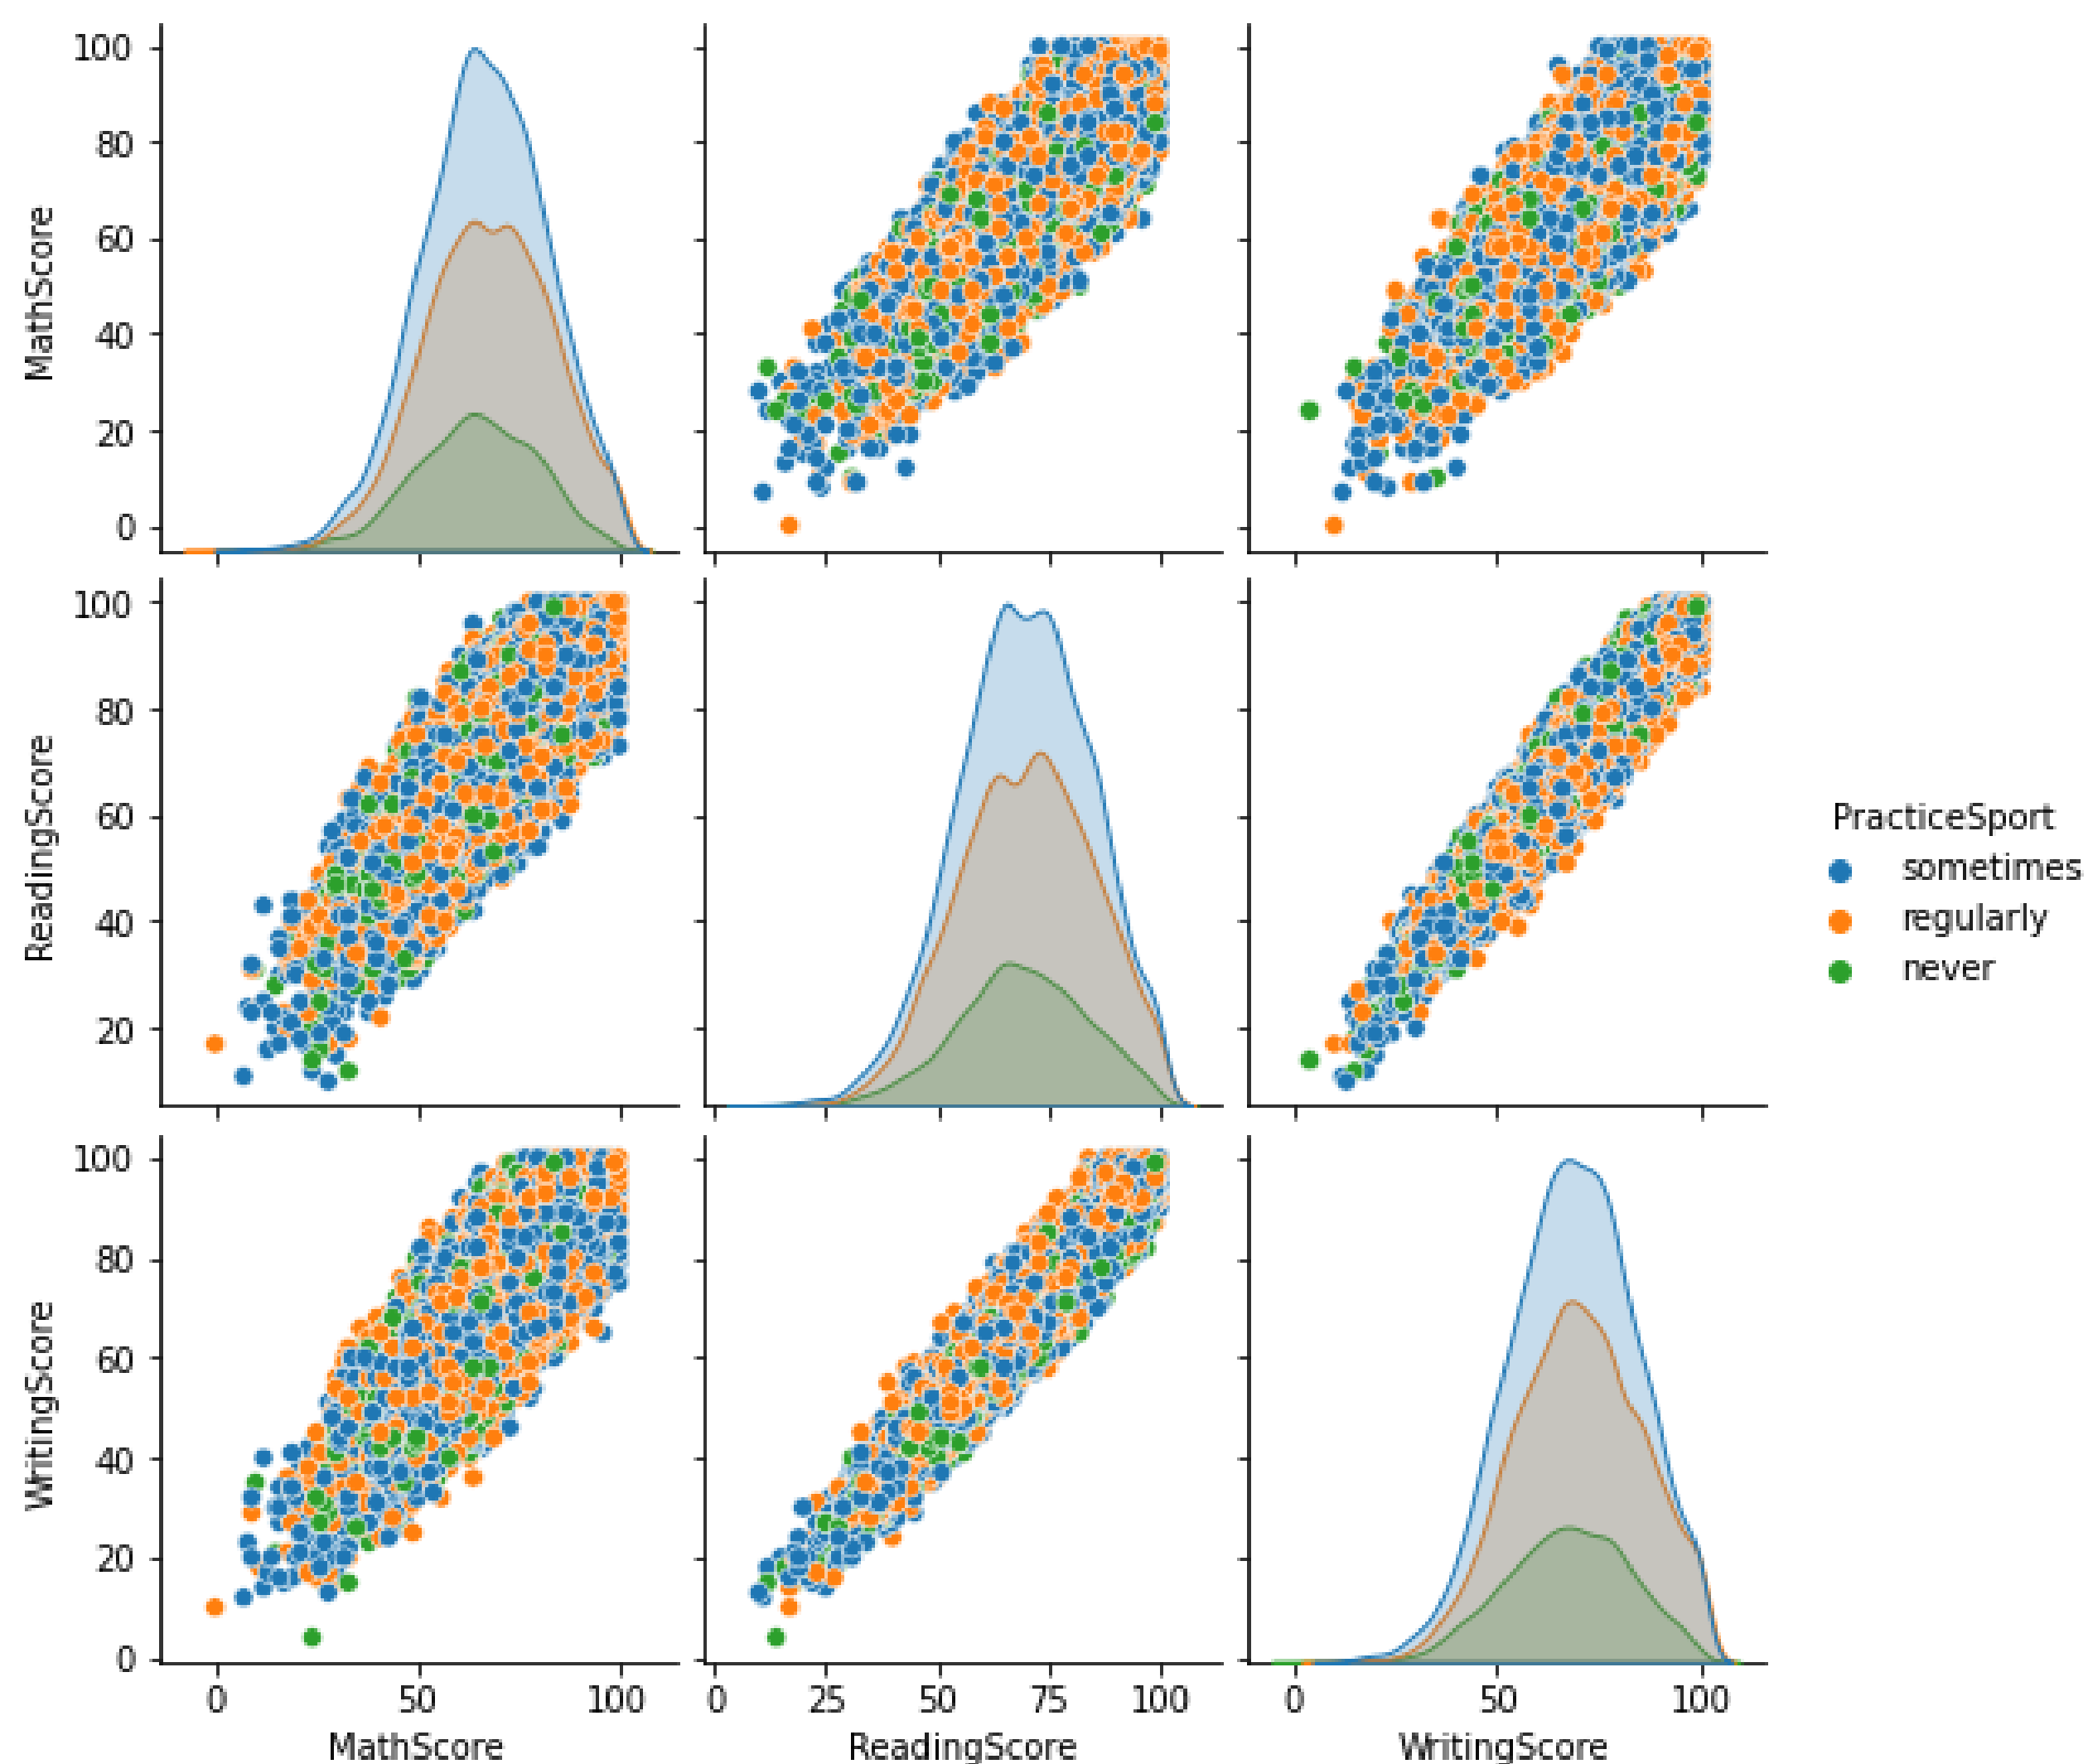

Histograms of Score

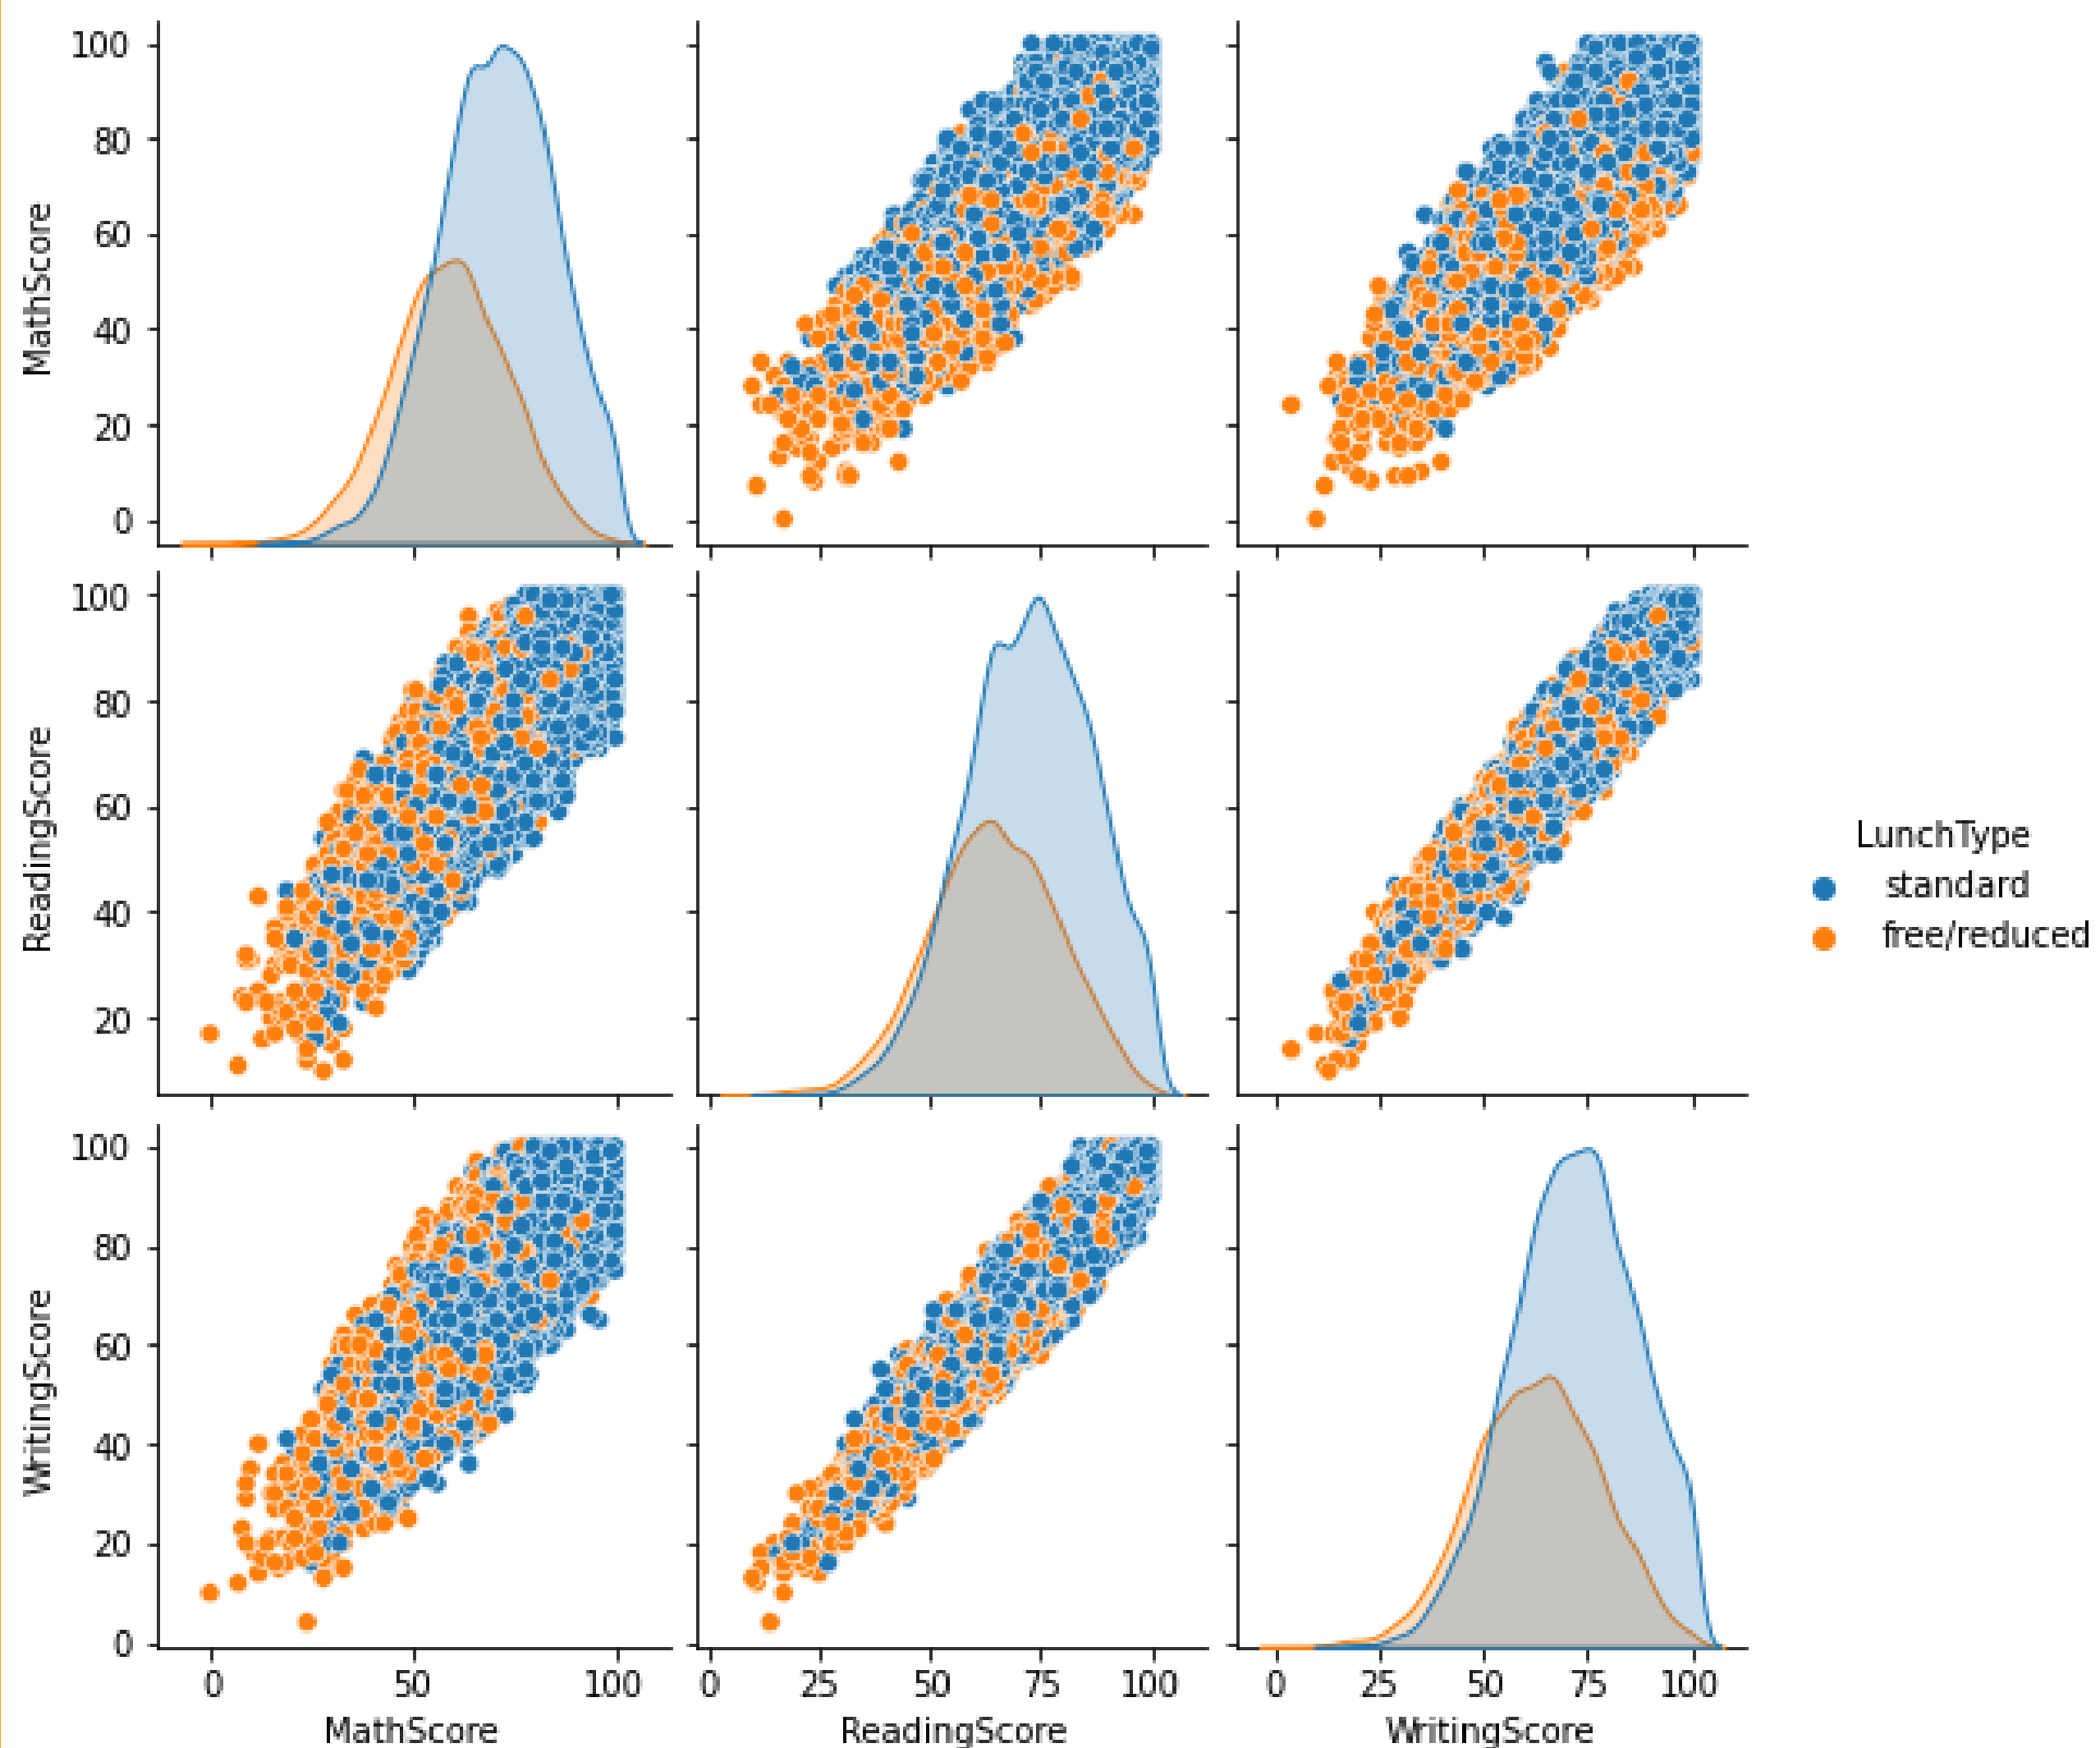

Marks of the Students based on thier Gender Split

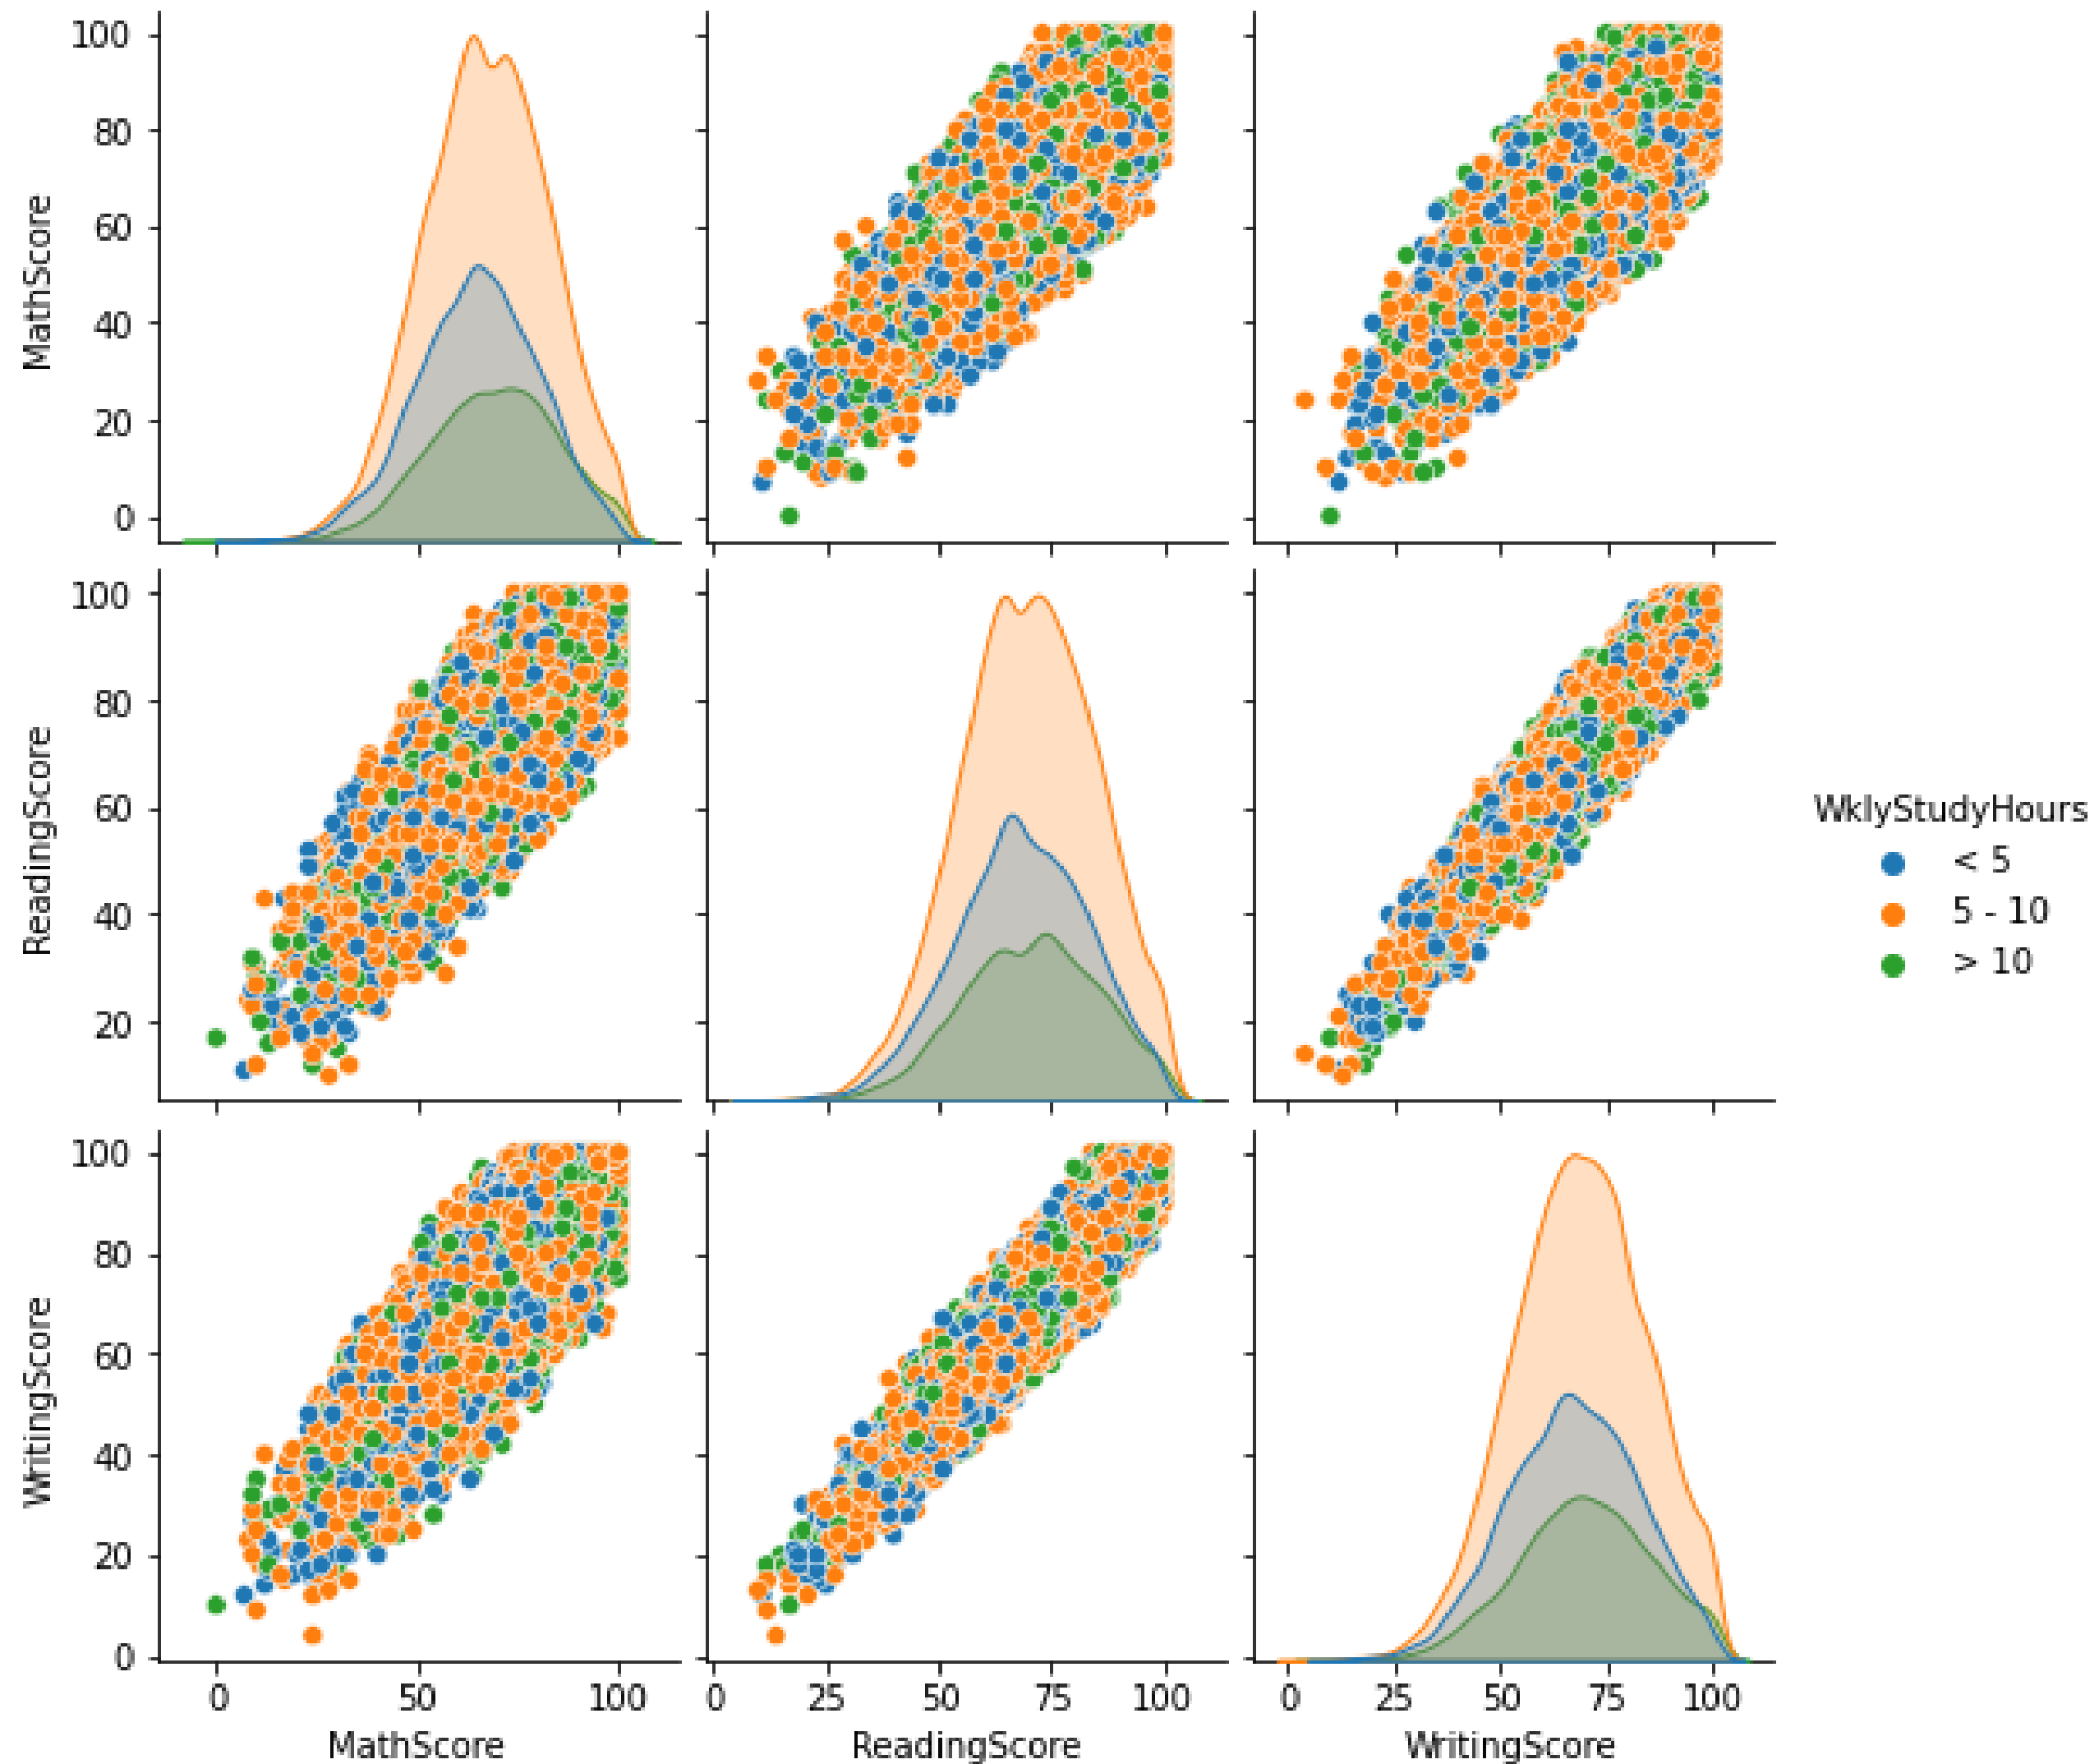

Marks of the Students based on thier Sports Practice

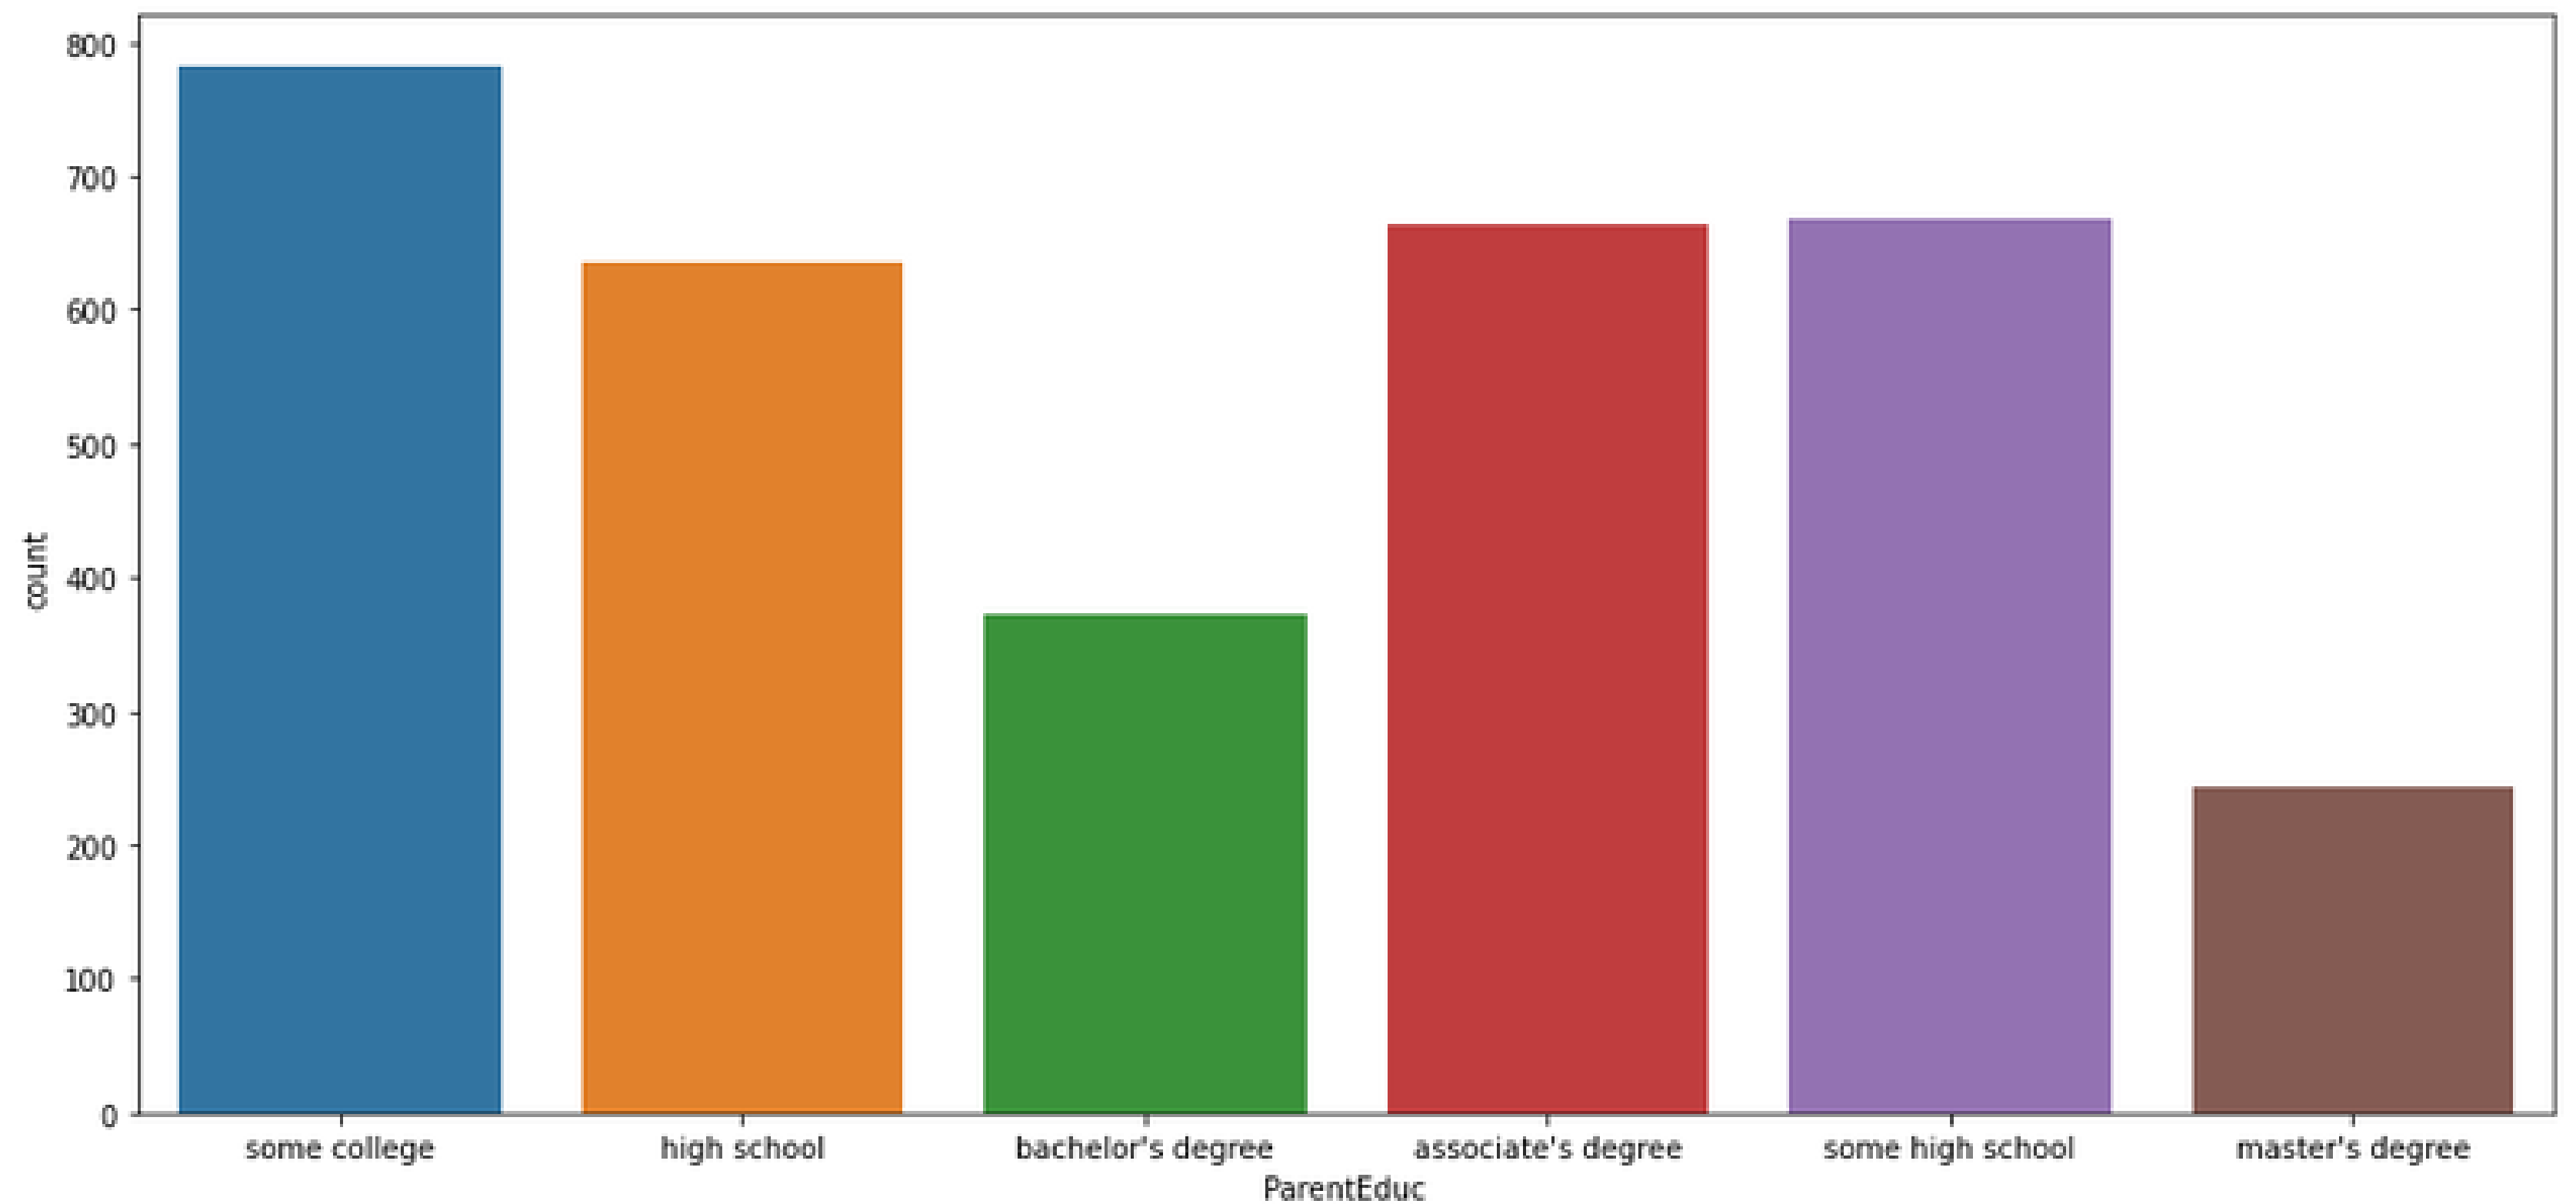

**Marks of the
Students
based on thier
Eating habbit in
the Lunch.**

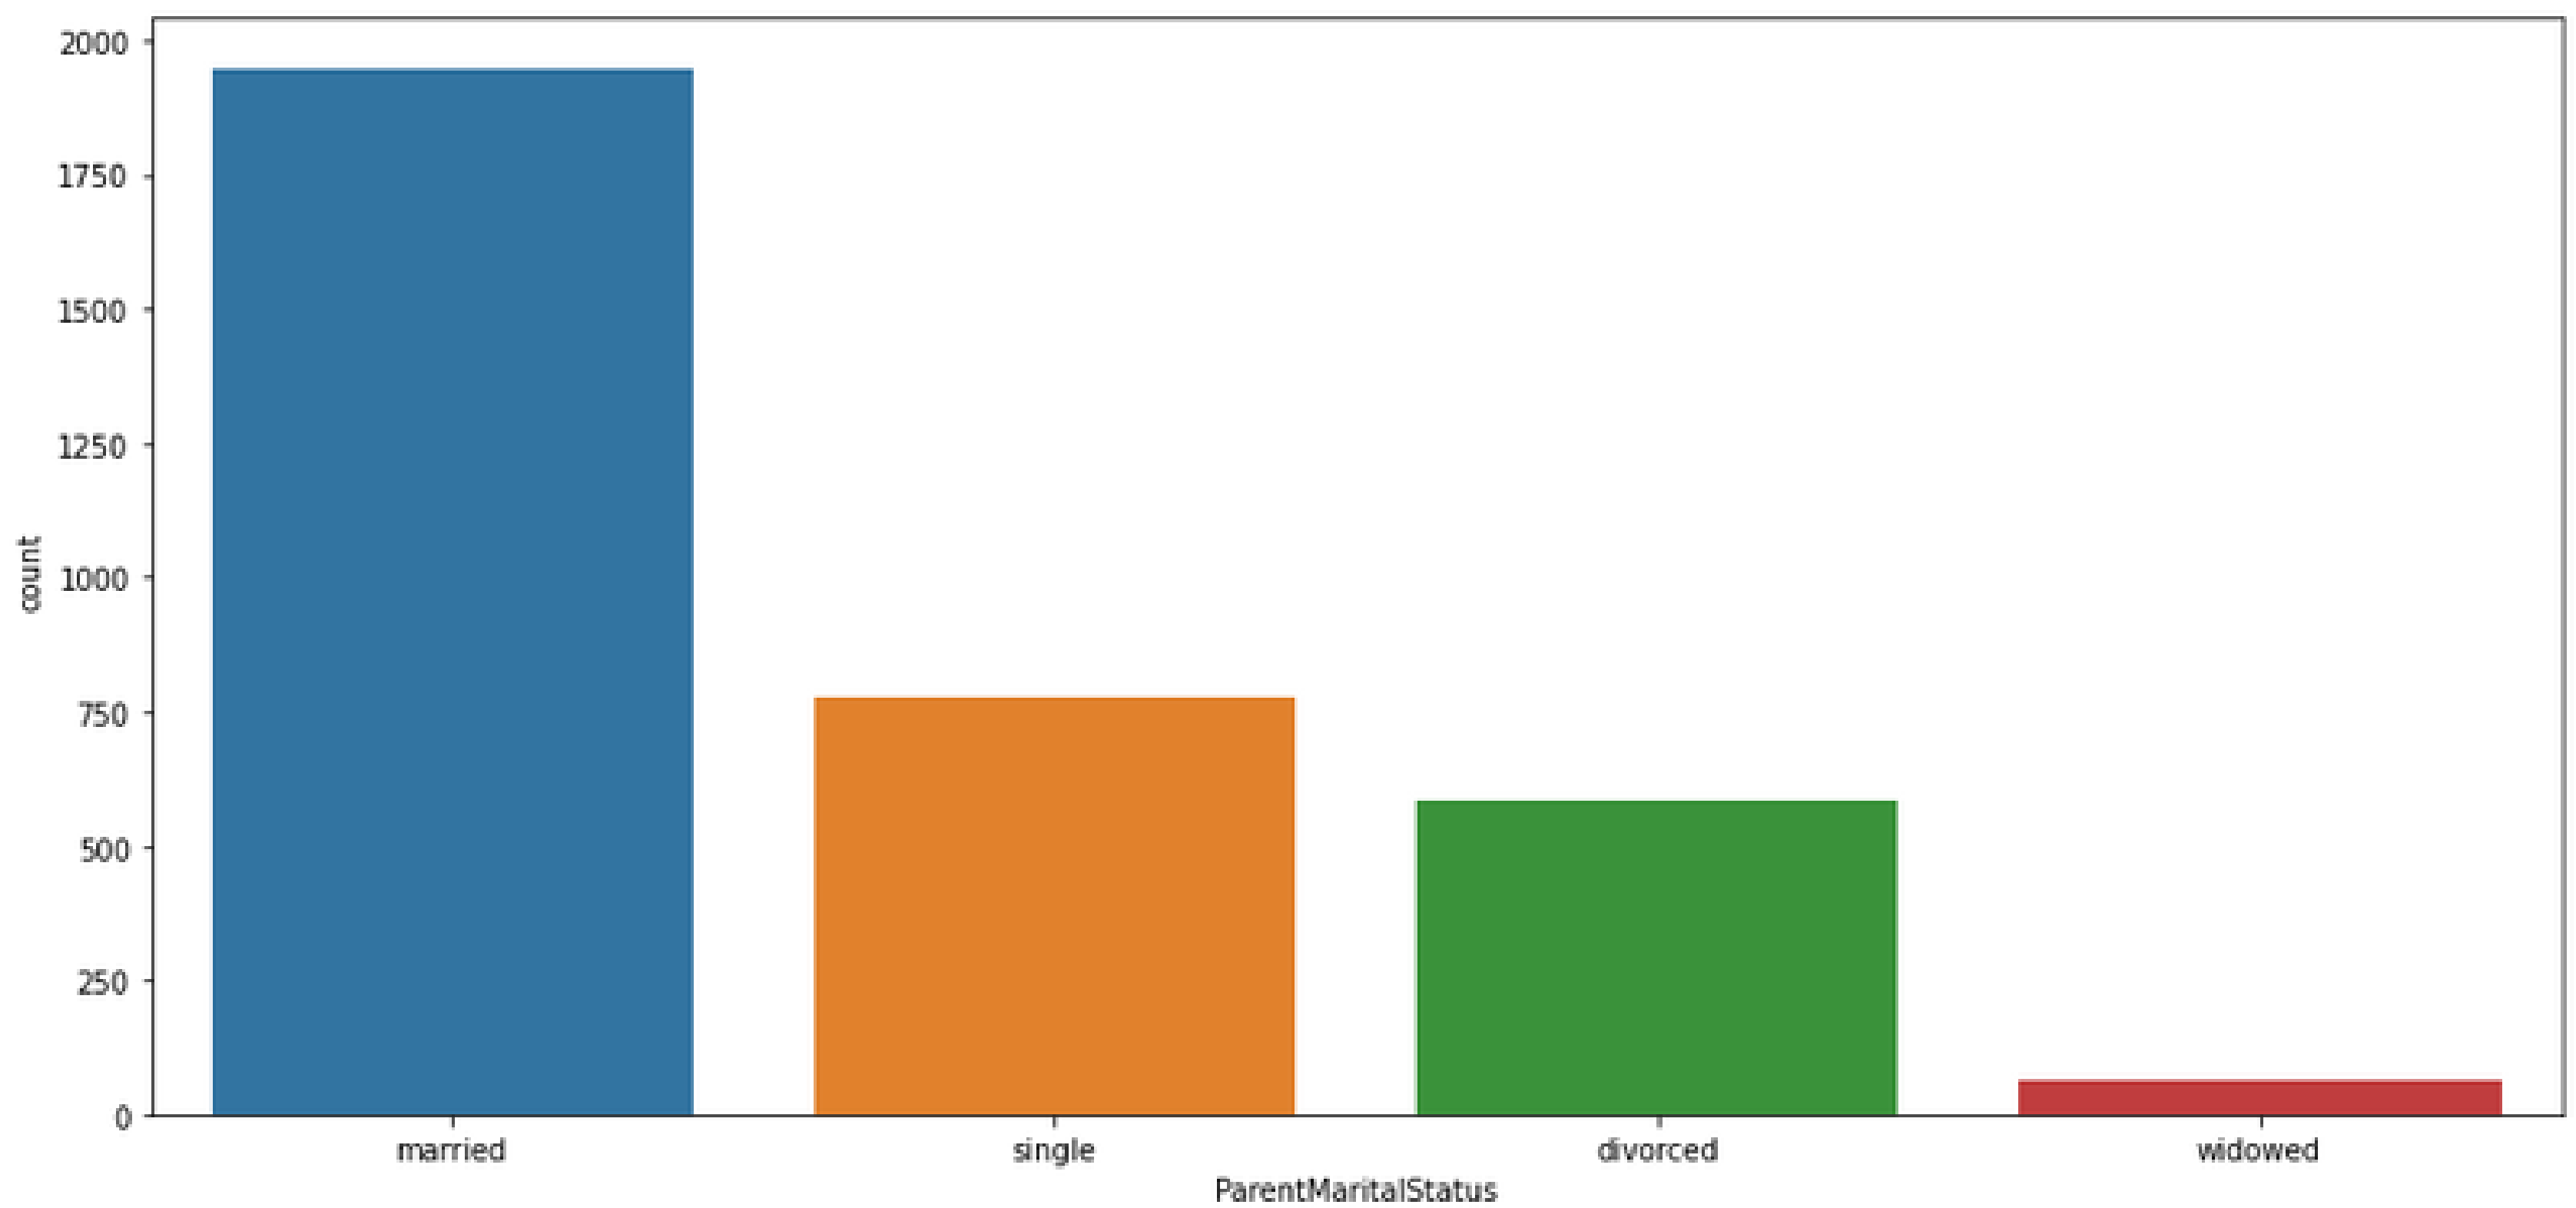

Marks of the Students based on thier hours of Study

**Why Do Students who Study
more than 10 hours have less
marks in their test?**

Parents Education Level

Parents Marital Status

Conclusion

- **So the Marks of the Stdents based on their Family Background, their Demography, their Eating Habitat(Directly proportional).**
- **Students who study for more than 10 hours have less score as compared to the other, this is because of their Parent educational and Marital status.**

Thank you!
